Application for an internship

Dear sir,

I am writing to express my sincere interest in undertaking an internship at African institute of computer sciences (AICs) for a duration of three months starting from July 1st to September 30th 2026. I am currently in my second year of a software engineering program at AICs Cameroon. Throughout my studies, I have developed strong competences in programming, system analysis and project coordination. In addition to my technical training, I have had opportunity to lead and manage group projects within my academic program, an experience that has sharpened my communication, organizational, and collaborative skills. I am confident that these abilities align well with the dynamic and impact-driven work carried out by AICs Cameroon.

I am highly motivated to gain professional experience in a dynamic and reputable organisation such as AICs Cameroon. I believe that this internship will help me strengthen my technical competencies, improve my practical knowledge, and contribute positively to your organization through dedication and hard work.

I would be grateful for the opportunity to further discuss my application during an interview. Please find attached my curriculum vitae and supporting documents for your consideration. Thank you for your time and consideration, I look forward to your positive response.

Yours sincerely,

FOUCHE HAMIDA
